

Pranav Birajdar

Front-end Developer

Work Experience

Intermediate Front-end Developer / Walnut Insurance

June 2021 - Present // Ottawa, ON, Canada

Walnut Insurance is a Toronto-based startup offering simple plans, instant coverage, and exciting member benefits

- o Built responsive static and dynamic pages and optimized cross-browser and multi-platform compatibility
- o Improved the error-handling and fixed bug reporting, reducing bounce rate by 65%
- o Increased the SEO, accessibility, and best practices scores of various landing pages by 40%
- o Collaborated with the design team to implement consistent design systems for the design and development teams

Projects

Lift Workout App / Next.js • Firebase • Tailwind CSS

Feb 2021 - Present // Ottawa, ON, Canada

[LIVE](#) • [CODE](#)

- o Designed and developed a personalized resistance training app using Next.js, a React framework
- o Incorporated Firebase Auth to handle user-authentication and Firestore to store daily workouts
- o Integrated Google Analytics to track website traction and application usage

COVID-19 Tracker / React • Chart.js • COVID-19 API

Dec 2020 - Jan 2021 // Ottawa, ON, Canada

[LIVE](#) • [CODE](#)

- o Built the dashboard with React, Semantic UI, and Netlify with a key focus on re-usable components
- o Designed line and bar graphs to display the daily and cumulative statistics using Chart.js
- o Utilized React Leaflet to display key COVID numbers for all provinces and territories

Reels Movie Database / React • SCSS • TMDb API

Oct 2020 - Nov 2020 // Ottawa, ON, Canada

[LIVE](#) • [CODE](#)

- o Developed a responsive Netflix clone using React, Sass, and Netlify
- o TMDb API calls and error handling was performed using Axios and Lodash
- o Implemented React Router to maintain the simplicity of a single page application and while handling dynamic routes
